

HEALEYS WEST

AUSTIN HEALEY CLUB OF WA (INC)

AUSTIN HEALEY CLUB OF W.A. (INC)

ABN 61 077 503 987

The Club exists for the preservation of Austin Healeys in all their forms and to encourage their use within Western Australia. To achieve this we hold meetings and events at which members may participate to become more familiar with their vehicles and to use and enjoy them in the way for which they were created. This enthusiasm is used to promote, foster and conduct motor sport generally and to encourage a closer relationship with other clubs of similar interests.

CLUB MEETINGS ARE HELD ON THE FOURTH MONDAY OF EACH MONTH:

At WA & Vintage Car Club Centre, 265 Hale Road, Forrestfield (Cnr Tonkin Hwy)

Magazine deadline: Last Friday of each month. Please provide articles to the Editor's email address.

Club Address: PO BOX 70, MAYLANDS, WESTERN AUSTRALIA 6931

email: info@austinhealeywa.org.au

Website Address: <http://www.austinhealeywa.org.au>

Annual Fees: \$70 Double, \$60 Single, \$50 Country

PRESIDENTS PRATTLE

HO HO HO, it's that time of year again, with an accelerator on life you wonder where the time goes!

The AHC of WA has enjoyed another year of various activities which have kept members entertained, possibly most remarkable were those intrepid Healeyites who shipped their cars to the UK to celebrate the 60th anniversary of the birth of our beloved marque.

We have had a full programme this year and 2014 will be a lot busier with the Rally looming up very soon. I would like to thank everyone who has contributed to the success of our events, and the greatest satisfaction comes from member participation.

November was memorable with a very full programme. I only managed the Motorkhana, Committee meeting, ECU visit (fantastic) and the General Meeting!!! Thanks again to Mal & Joy for the wine and cheese, and also for bringing in their stunning 1964 Cadillac Convertible Coupe for display.

There is absolutely no truth in the rumour that Joy needs a periscope to see out of it!!!

I'm looking forward to the Christmas Luncheon which is very well patronised by the numbers and of course the club is subsidising the event to ensure you have a merry time.

Which only leaves Christine and I to wish all the members and their families a very Merry Christmas and a happy and peaceful New Year.

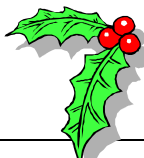

Cheers

Nigel Egginton

**Competition and Social Calendar**

Date	Activity	Meeting Point	Time	Organiser
Dec 2013				
Sun 8th	Christmas Party	Fillaudeau Restaurant 114 Benara Rd Caversham Starting with Wine Tasting at Pinelli Wines	12.30 pm	Mal and Joy Brown

Mon 24th	General Meeting	VSCC Club Rooms Forrestfield	8.00pm	Nigel Egginton

Merry 
 *Christmas*

Cobweb Run to ECU FSAE 20/11/2013

An early start for the Cobweb run saw a total of 6 Healeys, 1 Mustang and about 3 tin tops leave the Point Fraser car park for a quick run up the Mitchell Freeway to the ECU Campus where we were joined by some local members giving a total of 21 members and guests. Our host Dr Kevin Hayward directed us to the area behind the Engineering Building from where we were able to go into the FSAE workshop. While the parking was very secure it was also out of sight so it made it difficult for the local members to find out where we were but all was resolved, hopefully without too many problems.

Kevin introduced some of the students working on this year's car and then gave a guided tour of the facility, highlighting the 3D scanner, the 3D printer including some of the very complex parts that have been made with it for use on the various cars.

A description of the 2011, 2012 and 2013 cars then followed before a quick break for some delicious, (as confirmed by Arthur) pizzas and cool drinks.

A question and answer session followed and included a video of the 2012 car competing against a Lamborghini(?) along Riverside Drive which the Lamborghini just won due to better straight line speed.

The very entertaining and enjoyable night came to an end when the last visitors left the Campus at about 10:15 and an invitation was extended to all the Club members to drop in at the workshop whenever they were in the area.

Peter Hayward

Healey line up Point Fraser Car Park 20/11/2013

ECU FSAE 20/11/2013 (continued)

Dr Kevin Hayward talking to the members and guests, with 2011 ECU FSAE Car (Brabham/Taurnac)

Attentive listeners with the 2013 ECU FSAE Car. Note the rear spoiler has a total weight of approximately 3.5 kgs.

Austin Healey Christmas Party

8th December 2013

Enjoy a luncheon at Fillaudeau Restaurant
Start with Wine Tasting at Pinelli & Canapes

Final numbers are out now for the Christmas Party we have 59 coming
Don't forget to pay the Healey Club before the Day.
Bring along your Santa gift to be in the fun and enjoy the day.
Between \$5 & \$10 or something you have made.
It's just for the fun.

MERRY CHRISTMAS TO ALL

HAPPY NEW YEAR TO EVERYONE

THANKYOU FOR YOUR SUPPORT DURING 2013

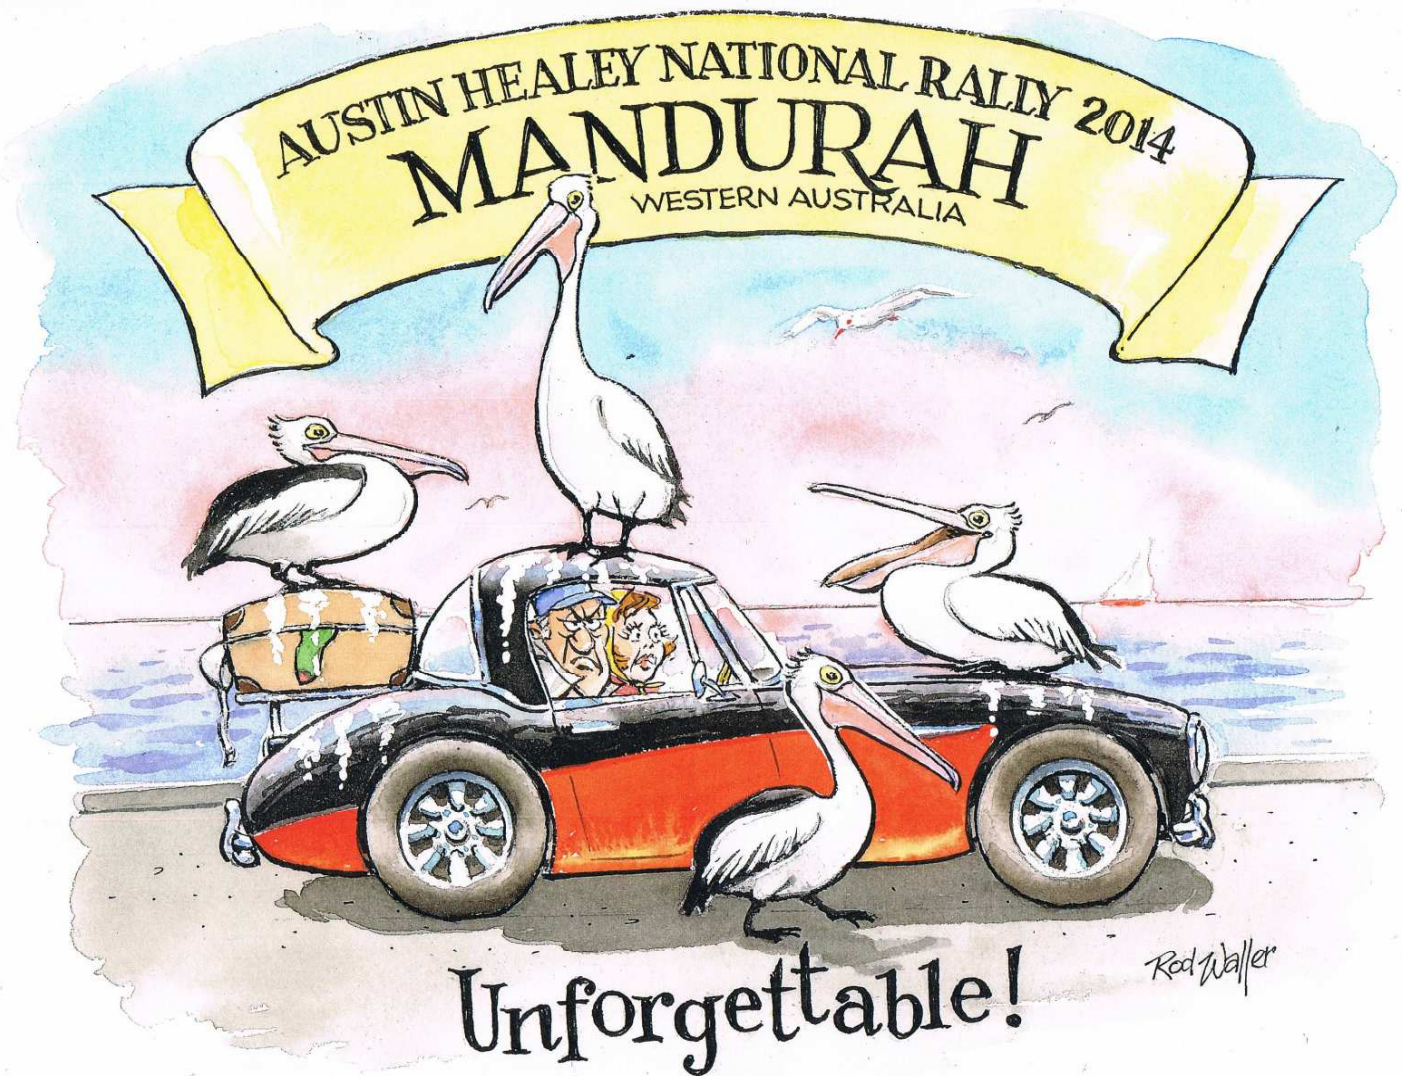

Mal, Joy and the Special Angels thank you for your support during 2013.

KEEP UP THE GOOD WORK.

January 2014

Due to the Christmas Festivities and Holidays we have decided to change the 4th January to 27th January.

The usual BBQ, on our normal meeting day but to be held by the water in Bayswater.
See What's on for details.

National Rally 2014

Mandurah WA

Friday 18th April – Monday 21st April 2014

See September and October Healeys West magazine for details and registration forms or please contact Carole Noble on 08 9459 4674 or geo.car@bigpond.com for further information.

Mike Hopkins, 18 years old, in a Sprite, with his BSA 650cc behind.

Mike Hopkins has set up a Facebook page for the Austin Healey Club of WA. It has already created a lot of interest. Check it out!

https://www.facebook.com/pages/Austin-Healey-Club-Of-WA/602126876517709#_=_

From the Editor's "Pen"

Can you believe it is December already! I can't. I have not bought one Christmas present yet, although this evening I cooked my Christmas Pudding—it's a start!

seum's first birthday which came from Dennis Welch Motorsport so they ended up with some free advertising!

Well I'm looking forward to a bit of R&R as no magazine will be produced for January—just a one page newsletter.

The magazine is perhaps a little bit lighter on this month but there are some interesting bits and pieces and news of recent events enjoyed by members, and of course the rally to look forward to in 2014. Thanks to Rod Waller for producing yet another great Rally cartoon. What would we do without him!

I would like to thank everyone for their support during 2013, the contributions have been consistent and varied which helps me to produce an interesting magazine for you all to read.

I wish you and your families a very bright and joyous Christmas and may the New Year bring you good health and happiness.

See you in the month, Hazel.

Thanks to Chris and Janice Wilding from Wongan Hills for sending photos of the Grass Gymkhana and Motorkhana on CD by mail and just in time!

I have included a piece about the Healey Mu-

December Birthdays

Many happy returns to you all

After having dug to a depth of 10 feet last year, British scientists found traces of copper wire dating back 200 years and came to the conclusion that their ancestors already had a telephone network more than 150 years ago.

Not to be outdone by the British, in the weeks that followed, an American archaeologist dug to a depth of 20 feet, and shortly after, a story published in the New York Times: "American archaeologists, finding traces of 250-year-old copper wire, have concluded that their ancestors already had an advanced high-tech communications network 50 years earlier than the British".

One week later, Australia's Northern Territory Times reported the following: "After digging as deep as 30 feet in his backyard in Tennant Creek, Northern Territory, Knackers Johnson, a self-taught archaeologist, reported that he found absolutely bugger-all. Knackers has therefore concluded that 250 years ago, Australia had already gone wireless."

Makes ya feel bloody proud to be Australian!

TWO ROCKS TAVERN LUNCH RUN 3RD NOVEMBER 2013

A big thank you to Jim & Mim Congdon, Keith & Andrea Patching, Charlie & Linda Mitchell, Rod & Hazel Lloyd, George & Sandra Pickering for joining Graeme and I on such a hot day for a run in the Healeys with the tops down.

The morning commenced with Graeme reading in the paper that Riverside Drive was going to be closed for a walk being held in the city. I quickly changed the route sheets to avoid Riverside Drive but later found that taking Adelaide Terrace was a big mistake. Too many people, too many cars therefore moving too slowly and getting too hot.

George and Sandra decided to meet us along the way as they couldn't get through the road blockages to our meeting place at Point Fraser Reserve Causeway car park.

We departed at 1045 and once clear of the city, which took us about an hour, our route took us past Lake Monger across to the coast. We could only hope that the sight of the ocean would make us feel a bit cooler.

Our run continued north along the coastal roads to Shenton Avenue from where we joined Marmion Avenue then Yanchep Beach Road then Two Rocks Road and finished up at the Two Rocks Tavern where a nice cold drink (or two) was most welcome.

For lunch we all enjoyed the Sunday special- roast chicken with a variety of vegetables. Good value at \$12.

After an enjoyable afternoon talking and looking out over the marina, we put our hoods up and took the quickest route home.

It was astounding to see how much development is happening in the northern suburbs.

Gail Shearer

AUSTIN HEALEY CLUB MOTORKHANA

Simple pleasures and perfect weather greeted the dozen competitors at the RAC Driving Centre on Sat 9th November, thank god (whichever one) that the fun police haven't discovered it yet!

Waiting for our time slot was entertaining, as we were able to watch the WA High School electric "car" challenge, which is a race between thirty schools whose students had designed and built them. The WA Home Built Assoc had a static display of ten interesting vehicles, mostly clubman style sports cars, and the ECU engineering students were giving spirited displays in their 2012 SAE race car.

The RAC Centre provided us with a Marshall who set four separate Motorkhana layouts and generally gave us a helping hand. We each had a practice lap and two timed runs on each layout. To take into account "Crafts Disease" we took the competitors best time on each layout, and at the end of the day the aggregate of the four times was calculated. Only 3 seconds separated 1st, 2nd and third and there was variety of cars, 1x [Sprite](#), 1x Midget, 5x 100/4s, 2x 3000s and one each MG F, WRX, 370z. The results were a little surprising when you consider the forty years of technological difference between 1st and 3rd places.

1st Brian Jarvis MG Midget 49 seconds

2nd Sam Stevens Subaru WRX 50 seconds

3rd Nigel Egginton Nissan 370z 51 seconds

1st Healey John Rowe Healey 3000 56 seconds.

It's seven years since I last ran an event at this venue, quite amazing really, and a bit disappointing as there were no lady competitors. In good old AHC tradition we retired to the Boab Tavern to discuss what might have been. Thanks to all those who helped on the day and a special mention for the great effort from Chris & Janice Wilding who drove their Sprite from Wongan Hills for the event.

Nigel Egginton

and thanks to Chris and Janice Wilding for all the photos of the day! (Ed).

28th November 2013

The heart of the Healey world Healey Museum - Netherlands

On Sunday 17th November, the Healey Museum celebrated its First **Anniversary**.

The Healey Home was officially opened to the public on the 24th November 2012 by Chairman **Hans van de Kerkhof**, together with **Bic Healey** and **Gerry Coker**.

Over 120 guests attended the event and received a Power Point presentation about the early activities of Donald Healey in the Royal Air Corps during WW I. The rarely known facts were revealed by **Bill Emerson** from the United States, the museum special guest. Bill passed on to the Healey Home a few pieces of memorabilia that enriched the whole exhibition:

- **Three models of airplanes coinciding with Donald Healey's flying years.**
- **Painting of Donald Healey now destined to hang on a special spot in the Healey Museum.**

It is worth remembering, that from the museum's early days **Denis Welch Motorsport**, is one of the major sponsors who's contribution helps to preserve the engineering and cultural heritage of Donald M. Healey.

The museum is host to a range of special cars on display, historical documents, memorabilia and archive film footage all providing a very interesting insight into the life and work of Donald Healey.

Jeremy and Melanie Welch were honoured to have been invited to the museum's anniversary along with many other friends and sponsors from the Healey community, and took part in general festivities. It was a professionally organized event giving all guests the opportunity to build up friendships and feel part of the exclusive group of Healey people.

Congratulations to the Healey Museum Team! As predicted the museum flourishes from year to year as a place which should be firmly on every Healey enthusiasts bucket list.

BONHAMS Lot 23
**1955 AUSTIN-
HEALEY 100M
ROADSTER**
£80,000 - 100,000
AU\$ 140,000 -
180,000

The ex-Earls Court Motor Show demonstrator

1955 Austin-Healey 100M Roadster

Registration no. TAC 620

Chassis no. BN2/228897

Engine no. 228897M

The historically significant car offered here, 'TAC 620', is one of two used to launch the new Austin-Healey 100M at the 1955 Earls Court Motor Show. They both sported eye-catching liveries – with the black-and-pink sister car on the Austin-Healey stand, and 'TAC 620', painted Florida Green over white, used as a demonstrator for prospective customers.

Following the Austin-Healey 100's sensational debut at the 1952 Motor Show, the works had entered two mildly modified cars in the 1953 Le Mans 24-Hour Race, which finishing in 12th and 14th places, a highly praiseworthy achievement for what were recognisably production sports cars. Accordingly, the name 'Le Mans' was chosen for a bolt-on tuning kit offered through Austin-Healey dealers, by means of which private owners could bring their cars up to a specification approaching that of the works entries. The kit included a pair of 1¾" SU HD6 carburettors plus special inlet manifold and cold air box, high-lift camshaft, stronger valve springs and distributor with alternative ignition advance curve. With the kit installed power increased from the standard 90 to 100bhp.

From October 1955 the conversion was available factory-fitted on the successor BN2 model in the form of the 100M. In addition to the Le Mans kit, the latter boasted high-compression pistons, stiffer front anti-roll bar, special Armstrong front dampers and a louvred bonnet. Power increased to 110bhp and top speed, with wind-screen folded flat, to within a whisker of 120mph. The number of BN1s converted by their owners is unknown, but 1,159 cars, mostly BN2s, were built or subsequently modified to 100M specification between 1955 and 1956. Of these, approximately 640 were completed at the factory, some 544 of which were exported to the USA. When one considers the other left hand drive markets, it would appear just over 20 BN2s were to right hand drive specification, with as little as eight, yes eight, for the UK home market.

'TAC 620' is unusual in having been fitted when new with an un-louvred bonnet, although otherwise it was built to full 100M specification. The car features extensively in the definitive work on the model, 'Austin-Healey 100 In Detail' by Bill Piggott. Piggott comments: 'Years later, Healey staff recalled that this particular car had very much above average performance.' Clearly, the factory had been determined that their demonstrator should impress!

After around nine months as a demonstrator, during which time it was occasionally driven by Donald Healey's son Brian, 'TAC 620' was fitted with a model-correct louvred bonnet and sold to the Goodwin family in nearby Leamington Spa, Warwickshire, who kept it for over 20 years. In 1978 the car was discovered and

rescued by Austin-Healey Club member Hugh Ferris. Fully restored by him, the 100M became a regular concours winner at Austin-Healey Club events, and also benefited from further cosmetic and mechanical refurbishment by marque specialists MPH of Blockley, Gloucestershire. In more recent years, the car resided with a collector in Sussex, very near to Goodwood. The vendor acquired the car from him, via an intermediary, in 2010.

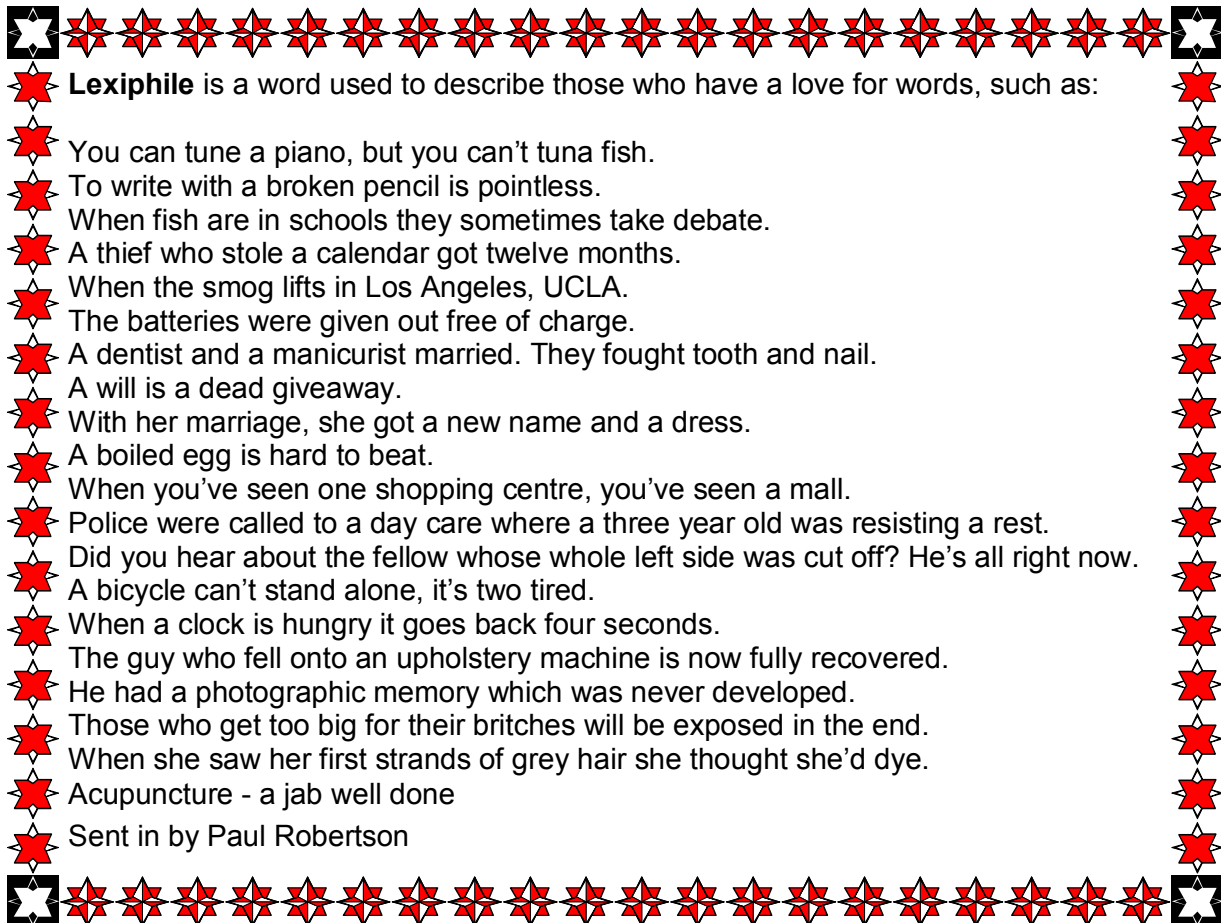

'TAC 620' is finished in correct Florida Green over Old English White with matching 'Special Green' interior trim and upholstery. It retains its original 'Motor Show finish' vinyl-covered dashboard (the stock item was painted) while other noteworthy interior features include a period-style Moto-Lita steering wheel, Halda Trip-master and a fire extinguisher, the latter mounted in the passenger-side foot well. FIVA registered (number '038041'), the Healey took part in the 2010 Rallye International des Alpes (competitor number '820').

Although an older restoration, 'TAC 620' still presents well, with straight bodywork good shut lines and very clean unmarked brightwork. The interior too is holding up well, with minimal signs of use and wear.

Last taxed to Sept 2013, this historic Austin-Healey is currently owned by an Australian collector who has kept the car in the UK for occasional use. It has been well cared for by Mark Knight and his team at Retro-Marques Ltd, near Tewkesbury, Gloucestershire. Works include an engine strip/rebuild and gearbox overhaul in 2012 for which invoices are available. Currently taxed, and offered with the aforementioned invoices, FIVA card, old style log-book (continuation book dated 1962), BMIHT certificate, and its V5 registration document.

'TAC 620' represents a rare opportunity to acquire an iconic first-of-the-line 'Big Healey', built by the factory to the desirable 100M 'Le Mans' specification. A UK delivered right hand drive 100M is about as rare as it gets and TAC 620 is arguably the most important of them all.
